

Request for proposals for the Science and Technology Park at Pentakomo

Tuesday, March 29 2016

The Ministry of Energy, Commerce, Industry and Tourism announces the call for tender for the development and operation of the Science and Technology Park at Pentakomo, in Limassol. The tender, which is published on the Cyprus e-Procurement Platform, requests proposals from interested strategic investors for the leasing of government land of approximately 328.000 sq.m., for a period of 50 years.

The Government of the Republic of Cyprus supports the establishment of the Science and Technology Park as a basic infrastructure for the promotion of applied research, innovation and technology in Cyprus, as well as a tool for both the development of entrepreneurship and smart specialization and the implementation of the national Digital Strategy. It is also expected that the Park will contribute considerably towards the diversification of the national economy and the transformation of Cyprus into a regional centre for applied knowledge.

The tender documents can be obtained from the Cyprus e-Procurement Platform, at <https://www.eprocurement.gov.cy/ceproc/cft/prepareViewCfTWS.do?resourceId=1577734>. The final submission date for tenders is the 29th of July 2016.

For further information, interested parties can contact Mrs. Lefki Theodorou, tel. +357 22 867233, email: ltheodorou@mcit.gov.cy or Mr. George Hajipapas, tel. +357 22 369845, email: ghajipapas@mcit.gov.cy.
